

MYCROFT SECURITY-AS-A-SERVICE FOR SAILPOINT

The Mycroft Security-as-a-Service for Sailpoint delivers Sailpoint identity governance software as a service to help enterprises minimize risk, achieve compliance and improve business efficiencies.

The joint offering provides the pre-configured, production ready delivery of Sailpoint IdentityIQ in a fully managed private cloud environment. Leveraging Mycroft Inc.'s enterprise class Security Operations Center, each aspect of the environment is monitored and maintained 24 hours a day, 365 days a year by a team of highly trained security experts.

The offering provides enterprises with unparalleled scalability, portability & speed-to-market through full encapsulation of both software and infrastructure. Leveraging a reference architecture formulated from over 20 years of implementation best practices, the service allows fast access to repeatable security deployments and is underpinned by the Mycroft MEAD platform that reduces CAPEX and implementation times.

SECURITY-AS-A-SERVICE FOR SAILPOINT

- Delivers pre-configured governance, compliance, lifecycle management & user provisioning solutions
