

MYCROFT

SECURITY-AS-A-SERVICE

The Mycroft Security-as-a-Service solution delivers a full range of pre-configured, industry proven security products as a service. Built on the Mycroft Managed Elastic Accelerated Deployment platform (MEAD), a highly consistent and scalable private cloud platform, the innovative offering includes full infrastructure, application and services management leveraging top tier Security Operations Centers.

Mycroft Inc.'s security-as-a-service equips companies with fast access to a simple and predictable solution for addressing access management, compliance and data protection.

Leveraging a reference architecture formulated from over 20 years of implementation best practices, Mycroft Security-as-a-Service is underpinned by the Mycroft MEAD platform that reduces CAPEX, implementation times and complexity.

SECURITY-AS-A-SERVICE

- Provides fast access to pre-configured, proven security portfolio as a service including: Single Sign-On, Multi-Factor Authentication, User Account Provisioning, Federation, Web Services Security, Entitlements Certification, Access Request, Role Management, DLP
